

The Tech

VOL. XXV. No. 72.

BOSTON, MASS., FRIDAY, APRIL 13, 1906

PRICE THREE CENTS.

ATHLETIC EXHIBITION.

Preparations Point to an Event Far Outshining the First Exhibition.

A very satisfactory program has been arranged for the Exhibition this evening which promises far to excel the performance of last year. There will be exhibitions in the following work: Flying Rings, Horizontal Bars, Parallel Bars, Tumbling, Indian Clubs, Buck, Horizontal Ladder, Second Parallel Bars, High and Pike Diving, and Long Horse; also a sparring match and a hand-ball game.

About half of last year's team are back and have shown a great improvement over former work, while the new men have been practicing hard and are doing almost as well as the veterans. Altogether the team is well practiced in general gymnastic work, besides the unusual proficiency each man has acquired in his specialty.

Lowrie, '06, on the flying rings is a star performer, being in excellent form and unusually strong. Two new men, Kales, '06, and Belden, '09, are also showing well in this event. Bentley, '06, Kales, '06, Sharp, '07, and Gibbons, '06, form a combination hard to beat on the high horizontal bar; while on the parallel bars Smith, '07, Sharp, '07, Lowrie, '06, Gibbons, '06, Belden, '09, and Capt. Griffin, '06, can match almost any college team in New England. One of the star events of the evening will be the tumbling exhibit, in which Griffin, '06, and Sharp, '07, will give a performance which will far outshine their brilliant work of last year. Smith's skill with the Indian clubs should bring forth great applause as he has been working hard on new movements. Haywood, '06, Gerhard, '06, Bartlett, '06, and Tobin, '08, will give pleasing performances on the buck, horizontal ladder, and second parallel bars. A feature will be the sparring match between Donovan, '06, and Schneider, '08, which should prove very exciting, as both are clever with the gloves. Another innovation will be a handball game between Bartlett, '06, and Rice, '08. Altogether an entertainment will be given which will well repay a large attendance.

PROF. JAGGAR TO SEE VESUVIUS.

Professor T. A. Jaggar of the geological department is on his way to Vesuvius. He will confer with a noted gathering of geologists who are hastening there with all speed. They will examine every feature of the present eruption, take photographs, and hold conferences on the causes and results.

Professor Jaggar will represent the Alexander Agassiz Museum. He was also at Mt. Pelee during its activity and will pay special attention to a comparison of the activities of the two mountains.

BIOLOGICAL DEPARTMENT.

Recent Work under Prof. Sedgwick — Demand Large for Sanitary Engineers.

The demand this spring for sanitary biologists and sanitary engineers is extraordinarily large. Within the last week Professor Sedgwick has received requests from state and local boards of health and consulting sanitary engineers for eight men, at salaries ranging from \$75 a month to \$2400 a year. Most of these places he has been unable to fill from lack of men.

Prof. S. C. Prescott recently gave an address at the Johns Hopkins University in Baltimore, under the auspices of the Maryland State Board of Health, on "The Production of Clean Milk as a Practical Proposition." Professor Prescott has under his supervision at present some two hundred dairies in the eastern part of Massachusetts and is recognized as a leading authority on the general subject of sanitary milk supply for cities and towns.

The donor of the Sanitary Research Laboratory and Sewage Experiment Station has contributed a further sum of \$5000 for continuing the work begun in 1903. An elaborate report of the results of the investigations of the first two years has been prepared by Prof. C. F. A. Winslow, biologist-in-charge, and Mr. E. B. Phelps, research chemist and bacteriologist, and will soon be published under the auspices of the Hydrographic Bureau of the U. S. Geological Survey. A popular exposition of the results will also be prepared for the benefit of individuals and communities which have to deal with sewerage or sewage disposal problems. No other educational institution in the world, so far as known, possesses a sanitary research laboratory or sewage experiment station of this kind, and it is doubtless largely because of the opportunities and training which these furnish that sanitary biologists and sanitary engineers trained at the Institute are in so great and growing demand.

Arthur I. Kendall, Ph. D., a graduate of the Biological Department in the Class of 1900, now Acting Chief of the Board of Health Laboratory of the Isthmian Canal Commission at Ancon near Panama, spoke to Professor Sedgwick's Class in Sanitary Science and Public Health at one of its recent meetings on sanitary conditions and care of the health on the Isthmus. Dr. Kendall gave many suggestions of practical value to men intending to work under tropical conditions.

Dr. Percy S. Stiles, Instructor in the Department, is giving a special course of one hour a week, open to students in all Departments, on Personal Hygiene. It is hoped that this course, which is specially intended for engineers and others whose work may place them under unsanitary conditions, may be made

(Continued on page 4.)

SENIOR NIGHT AT KOMMERS.

Marble Clock to be Given by Seniors. Cabot Medals Presented.

At the regular Kommers tomorrow night the Senior Class will formally present to the Tech Union a marble clock. At the last Class dinner held at the Tech Union on April 4, President M. A. Coe of the Senior Class suggested that the Class make some present to the Tech Union in appreciation of its usefulness in making and strengthening friendship among the members of the Class and he thought that a clock would make a very suitable present. The suggestion was very promptly acted on and a subscription was taken. Tomorrow night the clock will be formally presented.

The entertainment committee announce several stunts by the talented members of the Class. J. G. Barry and J. C. Kinnear have consented to give a violin duet. Four of the Senior members of the Mandolin Club will play several selections, G. M. Henderson will sing and C. F. Willis has prepared a musical specialty, R. P. Reynolds will play a piano solo and H. J. Mann will give an imitation of Kellar in several sleight-of-hand tricks.

Dr. Pritchett is expected in Boston this afternoon and he will be at the Kommers tomorrow night to present the Cabot medals to the winners. It is hoped that as many of the winners as are able will attend the Kommers and receive personally the medals awarded.

THE ARCHITECTS' COMPETITION.

Every year the Boston Society of Architects offers two prizes of \$50 each, one to the regular and one to the special student who best solves a chosen problem in the fourth-year course in Architecture. A committee of the society selects the problem and judges the drawings. This year the problem was a Monumental Fire Place in a Building for the Hague Tribunal. The plans were submitted on March 20th, and last Wednesday the report containing the decisions was posted. The prizes were awarded to Wm. Rasmussen, special, and J. T. Wrinkle, regular student; and the following men were mentioned in order of excellence, Samuel Gideon, and J. H. Cady of the specials and Charles G. Loring, A. A. Blodgett, and F. Logan for the regular students. In the report the committee said that they were very much pleased with the way in which the work had been done.

The competition was founded by the Boston Society of Architects in 1903, in order to improve the work done by men at the Institute. The subjects of former competitions were: '03, "The Doorway to a City Club"; '05, "A Bay Window"; '05, "A Gate to a Private Park."

The drawings are now on exhibition in the Exhibition Hall in Pierce.

CALENDAR.

FRIDAY, APRIL 13.

- 4.00 P.M. Rehearsal of Tech Show Chorus at the Tech Union.
- 4.00 P.M. Mandolin Club Rehearsal in 31 Rogers.
- 4.15 P.M. Prof. Swain's Readings in 6 Lowell.
- 7.30 P.M. Civic Club Meeting in 16 Rogers.
- 8.00 P.M. Second Annual Gymnastic Meet at Tech Gym.

SATURDAY, APRIL 14.

- 2.00 P.M. Rehearsal of Tech Show Principals at the Tech Union.
- 2.00 P.M. Target Practice at Walnut Hill. Take the 2.20 train from Trinity Place.
- 2.07 P.M. Hare and Hounds Run at Wellesley. Take the 2.07 train from the North Station.
- 2.30 P.M. Baseball '09 vs. Tufts Dental '08 at Tech Field.
- 3.00 P.M. Baseball '08 vs. Waltham at Waltham.
- 6.30 P.M. Kommers.
- 8.00 P.M. Technology Club Address by Mr. Roland Thomas.

MONDAY, APRIL 16.

- 4.00 P.M. Tech Show Chorus Rehearsal at the Tech Union.
- 4.00 P.M. Banjo Club Rehearsal in 33 Rogers.
- 4.00 P.M. Mandolin Club Rehearsal in 31 Rogers.
- 4.15 P.M. Tech Board Meeting in the Trophy Room, Rogers.
- 4.15 P.M. C. E. Society Meet in 11 Eng. B.

TUESDAY, APRIL 17.

- 1.00 P.M. 1909 Football Team Meets in Huntington Hall.

NOTICES.

Prom Subscriptions.—Prom subscriptions are due today.

1908 Baseball.—Team will play Waltham High School at Waltham Saturday.

1909 Football.—Team meet in Huntington Hall, Tuesday, April 17, at 1 P.M. Bring money for sweaters.

M. A. H. S. Club.—Dinner at the Union, Friday, April 20, at 6.30. Tickets 50 cents. Please purchase in advance.

Instructors' Club.—Dr. Tyler and Mr. Rand will be guests of the Instructors' Club on Tuesday, April 17, at the Union.

1909 Baseball.—The team will play Tufts Dental, '08, at Tech Field Saturday afternoon. The game will be called at 2.30 sharp.

Target Practice.—Target practice will be held this week at Walnut Hill, on Saturday afternoon. Train leaves North Station at 2 P.M.

Chemical Society.—The Chemical Society will hold a dinner at 6.30 P.M., April 18, at the Union. Tickets will cost 75 cents each.

Civic Club.—There will be a meeting of the Civic Club in 16 Rogers at 7.30 P.M. today. The subject for debate is: "Resolved, That Municipal Ownership is both Possible and Advisable in the United States."

The Tech

Published every Monday, Wednesday and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second class matter October 6, 1904, at the post office at Boston, Mass., under the Act of Congress of March 3, 1879.

Friday, April 13, 1906.

"Men's seizing of opportunities make their abilities."

Tomorrow night is Senior Night at the Kommers. As this is the last Class Kommers of the year, everyone should attend. The fact that the Seniors will furnish the entertainment should not make anyone feel that he would be out of place, even though not a Senior. Everyone ought to turn out and make this Kommers a great success. Let us show that the Tech Union is too small to hold us all and that we must have a Walker Memorial to accommodate the students who believe in "rubbing elbows" and getting acquainted.

Tonight at the Gymnasium will be held the Second Annual Gymnastic Meet. When this meet was held for the first time last year the interest which was shown in the exhibition seemed to warrant the establishment of a custom — that of holding a meet annually. Increased interest in gymnastic work has manifested itself since the opening of the new Gymnasium last fall, and at the second annual meet tonight the results of considerable practice and training on the part of the participants should be very satisfactory. A meet of this sort shows to the student who rarely does any gymnasium work, what can be accomplished by practice and at the same time gives some idea of the value of gymnastic work both as a training and as a diversion. Diversion is as necessary as work and boxing as well as handball, three-deep, and other games furnish a splendid opportunity to obtain it.

ELECTRICAL ENGINEERS MEET.

The third annual dinner of the Seniors in Electrical Engineering was held Tuesday evening at the Burger Brau and fully upheld the reputation for good fellowship established by the two Junior gatherings. Professors Clifford, Laws, and Puffer and Messrs. Coburn and Jackson were the guests of the evening. After the physical discussion of the menu, Professor Clifford gave a technical discussion of the menu cards, which took the form of a vector diagram, and spoke of the very pleasant relations which have existed between students and instructors of the department. Professor Puffer told some interesting stories illustrating the difficulties which had to be overcome in professional work, and Professor Laws spoke of the unsettled state of the department during the last few years, outlined the future policy, and reminded the fellows that in the years to come their advice would be valuable in the carrying out of that policy. Informal talks were given by President Wetterer, on "Our Professors," Steel, on "What we have Learned," Green, on "Jackson as I have known Him," and by Furness, Jackson, and Coburn.

CHURCH NOTICE.

Tech men are welcome at the Second Universalist Church, Columbus Avenue and Clarendon Street, Sunday at 10.30 and 4. Special Easter music will make the services inspiring. Why not come?

Summer Work. — A Springfield firm has positions for Tech men, paying \$2.00 per day and upwards according to ability. See A. C. Nichols, '08, at Cage, 1.05-1.15.

INVENTOR.

The Technical Magazine for all Technology Students. Something different from all those you have seen. Instructive, and written by men of authority in their special lines. Contributors are Prof. Geo. B. Haven, M. I. T. Mechanism, W. F. Hillebrand, Analytical Chemistry, the Telautograph, etc. 5 cts. at newsstands, 50 cts. per year. Subscriptions taken by J. N. Stephenson, '09.

Dance Orders.—Any one who
has signed up for the Prom and
has not received a dance order, may
get one by applying at the Cage.

C. E. Society.—The Civil En-
gineering Society will hold a meet-
ing Monday, April 16, at 4.15 P.M.,
in 11 Eng. B. Mr. William L.
Church will speak on "Concrete-
Steel as Applied in Hydraulic Con-
struction."

Freshman Collectors.—Every
collector of Freshman assessments
must report in person or by note at
the Cage to H. E. Whittaker, treas-
urer, before 4 o'clock this afternoon.
This is very important, as the ballots
for vice-president must be mailed at
once.

STRONG ADDRESS AT Y. M. C. A.

Rev. A. P. Fitch of the Mt. Ver-
non Street Church spoke at the Y.
M. C. A. meeting yesterday noon in
Trinity Chapel. Though one of the
younger pastors in Boston, Mr. Fitch,
by reason of his strong personality
and deep interest in students, has
rapidly advanced to a position of
prominence. His address at the
Association meeting was in tone with
his attitude toward the sacredness of
life.

His thought was that, for us stu-
dents, every important element of
life—home, upkeep, educational
opportunities, the good influences of
tradition, the liberty to seek truth
unhampered by legal or ecclesiasti-
cal difficulties,—all are bestowed by
those who love us or by those whose
efforts and lives have in the past

been given that we at this time may
start life equipped for service. The
responsibility resting on us is to see
that this great price paid for our well-
being is not wasted in a narrow, sel-
fish, or vicious way. All our efforts
and the exercise of every power
should be in the direction of help-
fulness and usefulness, for the good of
all, and not consumed in self-aggran-
dizement. True success lies in in-
creasing helpfulness not in increased
personal success or wealth.

FRESHMEN WIN.

The Freshmen played 1907 at base-
ball Wednesday afternoon and won
by a score of 3 to 2. The play was
somewhat ragged as both teams had
had but little practice. The pros-
pects of the Freshman team are
promising, however, and practice
will greatly improve them. In
Wednesday's game there was very
little batting, most of the men being
put out on strikes. Thomas, for
1907, made a run in the first inning
and one in the eighth. The Fresh-
men failed to make a run until the
eighth, when Perry scored. In the
ninth Sherman and Landis each
made one run, making the final
score 3 to 2 in favor of 1909. The
line-up follows:

1909.	1907.
Nichols, Eaton, c.	c., Hall
Kelley, s.s.	s.s., Martinez
Landis, 3d b.	3d b., Haley
Minot, Leeder, 1st b.	1st b., Stevenson

BIOLOGICAL DEPARTMENT.

(Continued from page 1.)

a permanent feature of the work of the Department.

Mr. Wm. Lyman Underwood, lecturer in the Biological Department, has recently given his lecture—originally delivered before the Society of Arts—on "Gypsy and Brown Tail Moths and Their Control," illustrated by lantern slides from photographs prepared by himself, in North Andover, Milton, Hyannis, East Dennis, and Willams-town, and is under engagement to speak in various other cities and towns. The rapid spread of these moths has aroused general interest in the subject and an eagerness to learn what ought to be done.

Dr. F. A. Woods has recently published in book form, with Messrs. Henry Holt & Co., his studies on "Mental Heredity in Royalty," upon which he has been engaged for a number of years.

Professor Sedgwick, in connection with the recent tuberculosis exhibit in Lowell, delivered an address in that city on "The Sanitation of the Home, the School, and the Workshop," and more lately, by invitation of the Health Committee of the City Council, addressed a large audience in Richmond, Va., on "The Hygiene and Sanitation of a Modern City." A lecture similar to that in Lowell was also given by him before the school teachers of Taunton.

PROF. SWAIN TO READ TODAY.

Prof. Swain will hold his usual reading in 6 Lowell, this afternoon at 4.15. The reading will be extracts from Seneca's *Morals*. The subject last time was "A Character Sketch of Mark Twain" by Robert Barr, which included his very humorous formula for getting a job.

MISSOURI CLUB.

At a meeting of the Missouri Club last night an assessment of seventy-five cents was voted to pay for shingles and the insert in *Technique*.
